

Dear customer, thank you for purchasing our product. Please read the following instructions carefully and follow them to ensure safe and satisfactory use. This will prevent misuse or damage. Avoid improper handling of this device and always follow the principles of using electrical appliances. Keep the instructions for use in a safe place.

INSTALLATION

1. Clean the surface to which you are going to attach the LED strip.
2. Adjust the length of the strip as needed. Shorten the strip at the marked points. The remaining parts can be reused. Connectors must be purchased to reconnect the strip.
3. The LED strip has adhesive tape on the underside. Peel off the protective layer and stick the strip in place
4. Finally, connect the LED strip to the mains adapter or connect the LED power supply.
5. For maximum service life, we recommend installing in aluminium profiles.

WARNING

- To achieve maximum service life and performance, it is necessary to install the strips on an aluminium base (in aluminium profiles) to prevent them from overheating.
- The strip can be shortened as needed (the remaining parts can be reused).
- Avoid placing the light fixture near objects that are sources of heat or moisture.
- Do not stare directly at the lit light for long periods of time, as this may cause discomfort or damage to your eyesight.
- The device is intended for indoor use.
- Wipe the light regularly with a dry or damp cloth only when it is disconnected from the mains.
-

The light source of this lamp is not replaceable. At the end of its service life, the entire lamp must be replaced and disposed of at a designated location. This product contains a light source that cannot be removed for verification due to its design, and therefore the entire product is considered a light source. The power cord cannot be replaced. If it is damaged, the device must no longer be used.

The product has a CE declaration of conformity in accordance with applicable regulations.
