

Thank you for purchasing our product. Before installing, using or repairing the product, please read these instructions carefully and pay attention to the safety warnings and instructions. This will ensure not only personal safety but also the long-term durability of the product. Avoid improper handling of this product and always follow the guidelines for using electrical appliances. Keep this user manual in a safe place. Installation must only be carried out by a qualified technician. The light source in this luminaire is non-replaceable; at the end of its service life, the entire luminaire must be replaced and disposed of at a designated collection point.

INSTALLATION

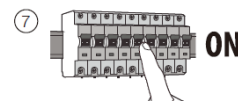

1. Switch off the power supply
2. Insert the wall plugs into the pre-drilled holes
3. Attach the luminaire to the ceiling
4. Connect the supply cable to the terminal block
5. Insert the screws through the plastic gaskets then screw the light fixture in place
6. Fit the light fitting cover
7. Switch on the power supply

* Use the switch to select the lighting temperature.

SAFETY WARNING

- Installation must only be carried out by a qualified electrician.
- Power supply: 220–240 V AC 50/60 Hz.
- For indoor use only.
- If the power cable of this luminaire is damaged, it must be replaced by the manufacturer's service department.
- There are no replaceable parts in the device

The light source in this luminaire is non-replaceable; at the end of its service life, the entire luminaire must be replaced and disposed of at a designated collection point. This product contains a light source which, for design reasons, cannot be removed for inspection; therefore, the entire product is considered to be the light source. The power cable cannot be replaced; if it is damaged, the luminaire must not be used any further.

A CE Declaration of Conformity has been issued for the product in accordance with applicable regulations.
