

Dear customer, thank you for purchasing our product. Please read the following instructions carefully and follow them to ensure safe and satisfactory use. This will help prevent misuse or damage. Avoid improper handling of this appliance and always follow the guidelines for using electrical appliances. Do not hang anything on the light fitting or cover it with anything. Keep the user manual in a safe place. Installation must only be carried out by a qualified technician.

INSTALLATION

Switch off the power supply before installation!

1. Insert the wall plugs into the pre-drilled holes.
2. Twist to remove the rear section of the light and thread the supply cable through the opening in the rear of the light.
3. Screw the back of the light fixture back on.
4. Connect the supply cable to the terminal block, ensuring the connections are correct.
5. Twist to attach the front part of the light to the back.
6. Switch on the power supply.

REMOTE CONTROL

Memory function:

- 1) If you switch the light on using a standard wall switch and leave it on for at least 30 seconds, then switch it off using the wall switch for at least another 30 seconds, the last mode used will be activated the next time you switch it on. The same time intervals apply when setting the lighting mode using the remote control and subsequently switching the light off and on using the wall switch.
- 2) When switching the light on and off using the remote control, the light always remembers the last mode used, regardless of the time intervals between switching on and off.

WARNING

- Installation must only be carried out by a qualified electrician.
- Power supply: 220–240 V AC 50/60 Hz.
- For indoor use only.
- If the power cable of this luminaire is damaged, it must be replaced by the manufacturer's service department.
- There are no replaceable parts in the device.

The light source in this luminaire is non-replaceable; at the end of its service life, the entire luminaire must be replaced and disposed of at a designated collection point. This product contains a light source which, for design reasons, cannot be removed for inspection; therefore, the entire product is considered to be the light source. The power cable cannot be replaced; if it is damaged, the luminaire must not be used any further.

A CE Declaration of Conformity has been issued for the product in accordance with applicable regulations. Available on request from the manufacturer: info@solight.cz, or for download at www.solight.cz/en.
